

National Leader in Rehabilitation

For the 24th consecutive year, TIRR Memorial Hermann Hospital ranks as one of the “Best Rehabilitation Hospitals” in America, according to *U.S. News & World Report’s* Best Hospital rankings; specifically TIRR Memorial Hermann ranks best in Texas and third in the nation for rehabilitation.

What Makes TIRR Memorial Hermann Different?

Some of the world’s leading physicians in rehabilitation medicine provide care at TIRR Memorial Hermann. The patient care environment blending passionate staff, exemplary care and a commitment to overall quality of life distinguishes TIRR Memorial Hermann. The facility transforms lives and inspires hope in people whose lives have been significantly altered by an illness or injury. Backed by the Memorial Hermann Health System, our patients have access to our Texas Medical Center specialists.

Interdisciplinary Team Approach

Rehabilitation is a complex process. Its success depends on multiple disciplines seamlessly working together to set treatment goals and monitor progress. The care of each admitted to TIRR Memorial Hermann inpatient and outpatient facilities is managed by a full interdisciplinary team of highly qualified individuals with specialized training in the field of rehabilitation. The team, led by a physician, includes physical therapists, occupational therapists, speech therapists, music therapists, rehabilitation nurses, pharmacists, social workers, case managers, dietitians, therapeutic recreation specialist, neuropsychologists and respiratory therapists.

TIRR Memorial Hermann offers comprehensive rehabilitation programs and services that address the individual needs of each patient who has experienced catastrophic injuries or illnesses.

International Patient Program

To further our international patient rehabilitation outcomes, TIRR Memorial Hermann has a dedicated international team that work with diverse patient backgrounds and nationalities. We can accommodate a variety of dietary, language and religious needs. In addition, we work closely with embassies, consulates and additional governmental entities to assist in the admission process. The majority of our international patients travel with a loved one/caretaker, we understand that they are a partner in the rehabilitation process and welcome them to become an active member of the care team.
